

# PREMONITION™

## ¿Por qué no contratamos a los abogados que más juicios ganan?

Parece obvio pero nadie lo hace. Elegimos a un abogado que va a defender nuestra libertad o nuestros bienes en un juicio por la recomendación de un amigo, conocido (o desconocido!); según lo que nos dice la publicidad o rankings online (pagos); de acuerdo al tamaño de su oficina o simpatía u otros parámetros subjetivos y francamente engañosos.

Decía el economista Philip Nelson que contratar los servicios profesionales de un abogado se parece a un acto de fe, ya que no podemos determinar la calidad del servicio ni antes ni después de rendido. No hay datos de su desempeño. Mejor dicho, no había.

**PREMONITION A.I.** es una empresa que usa **Inteligencia Artificial** y **Big Data** para determinar cuáles son los abogados que ganan más juicios frente a un determinado juez; o cuyos juicios duran menos tiempo promedio.

**PREMONITION A.I.** lo ayuda a usted a elegir el mejor abogado que pueda pagar, no según su percepción o la de sus pares, sino de acuerdo a datos empíricos. Así usted ahorra dinero y obtiene mejores resultados.
