

More Courts. More Cases. Better Data.

COURT DATA

From the World's Largest Litigation Database

There are over 41,000 cases filed per day in the United States. Using Artificial Intelligence, Premonition has built the world's largest litigation database. You now have access to more Court Data than ever before.

What is Court Data?

Court Data is information extracted from cases filed in court. This includes: Plaintiff, Defendant, Attorney, Judge, Filing Date, Case Duration, Current Status, Outcome, Judgment Awards, and much more. It also includes the docket (summary of case proceedings) and documents filed during the life of a case.

What Makes Premonition Different?

Premonition has more courts, more cases, and better data. It has the world's largest litigation database, which is growing by thousands of cases per hour.

Who uses Court Data?

A wide variety of professionals and industries rely on Court Data for proper risk assessment, analytics, and decision-making:

- Underwriters
- Lawyers
- Law enforcement
- General Counsel
- Risk Managers
- Government Agencies
- Background Investigators
- Claims Managers
- Litigation Funders
- Investment Analysts

Court Data

Premonition captures all the cases filed in the courts it covers. It is a powerful engine designed to collect and analyze Litigation Big Data.

Are You Missing Cases?

Data Provider	Major Legal Database	Premonition
Court	Miami-Dade	Miami-Dade
Coverage	Yes	Yes
Judge	Judge 'X'	Judge 'X'
Cases	678	9,123

How is Premonition Data Formatted?

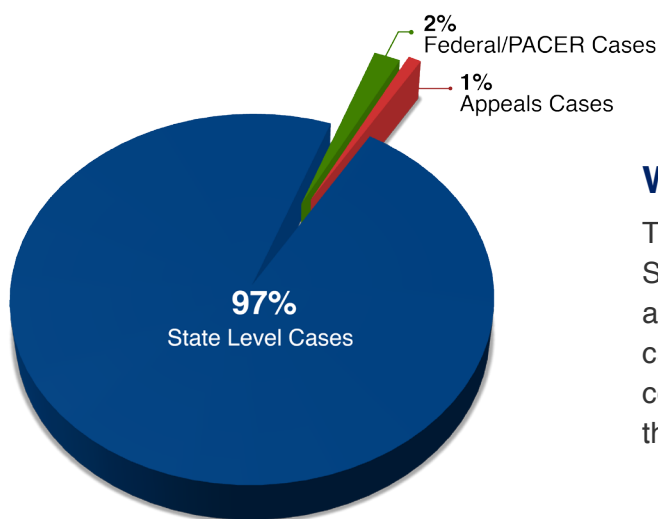

Premonition normalizes the case information it extracts from every court it covers. This enables it to search across the entire court system and gives clients the ability to make highly specific data requests. Premonition can deliver data via spreadsheet or API.

Court	Case Type		
Hartford County	T03 - Torts - Defective Premises - Private - Other		
Hartford County	Case		
Hartford County	PODARIDIS, ANDREW v. COMCAST OF CONNECTICUT, INC.		
HERNANDEZ, KA	Case Number	File Date	Case Status Date
CRISTESCU, MA	HHD-CV14-6046946-S	2013-11-21	2015-02-25
	HHD-CV14-6046948-S	2013-11-21	2015-11-06
	HHD-CV14-6047032-S	2013-11-26	2015-04-21

What about Court Documents?

Premonition's lightning-fast document reader can read over 50,000 documents per second for keywords and text strings. Improve efficiency reduce research costs.
